## Experience Timeless Elegance with Alpha Wood Cladding

Discover the ultimate in wood elegance with our Alpha Wood Cladding product line. Named after the regions that have inspired us for over two centuries of business, each look carefully curates the best of species, grain, texture and finish.

From the colonial charm of 'Williamsburg' to the sun-kissed 'Barbados', each style has been crafted to celebrate the essence of these beautiful places.

### Finest Selection of Wood Species from Our Own Lumber Yard

We focused our cladding around 6 species proven to excel on exteriors:

- **White Oak**
- **Jatoba**
- **Western Red Cedar**
- **Cypress**
- **Sapele**
- **Thermally Modified Ash**

All of these are in stock NOW on our lumber yard, **no delays in sourcing** or additional costs, we own the material already.

### State-of-the-art Finishes and Quality Millwork

Each Alpha Wood Cladding piece is masterfully created at our 15,000 sq ft millwork facility in White Marsh, MD. Selected from our inventory of over 7 million board feet, we promise unparalleled quality, strict quality assurance, and fast production.

Our finishes are executed on site in our 5,000 sq ft dedicated finishing facility to ensure your cladding resists flaking, cracking, and UV damage, ensuring long-lasting beauty. Each finish carefully selected to enhance the wood species and texture of your specific cladding.

### Nationwide Shipping with Personalized Service

Our nationwide deliveries are punctual and personal, just like our service. Because we maintain our own fleet of trucks we have the ability to deliver weekly to ANYWHERE in the US, Hawaii, and Caribbean. While the organic nature of our wood nullifies warranties, our commitment to your satisfaction does not wane. We offer continuous support during and after installation with a dedicated sales representative. If you need an onsite visit, we can do that to ensure your delight with our product.

### More Than Just Cladding

Alpha is just a part of our extensive offering. We also specialize in decking, lumber, doors, windows, and both exterior and interior trim work (with priming options available). Custom is at the heart of our business.

**Request a sample (2 biz day turnaround) or set up a consultation with our Alpha PM**
